Ship Security Alert System SHIPLOC V

Dear Sir.

In your application to the Danish Maritime Authority (DMA) you have asked whether your SHIP SECURITY ALERT SYSTEM may be used on board Danish ships.

With reference to this please be informed that we can accept the above-mentioned equipment are installed on board Danish ships. This acceptance is given in the light of Type Approval Certificate from Bureau Veritas, who attended testing of the equipment and found it functional in accordance with SOLAS XI-2/6.

In addition for this acceptance is that the equipment is produced exactly in accordance with the original approved prototype.
